

AIESEC: Global Talent Programme

Overview

Programme Description

The programme sets up paid and unpaid internships mostly in the fields of business administration and marketing, business development, finance and IT. Participants broaden their professional knowledge in an international environment, increase their employability and contribute to the development of a company abroad. At the same time they are given the opportunity to get to know different cultures, improve their language skills and play an active role in the challenging day-to-day working environment of an international company.

The Global Talent programme does not provide financial support, but arranges internships instead. Participants pay a one-off exchange fee of 450 EUR, find an individually set up internship and are then supported before and during their stay. Participants receive either a salary or an apartment from their employer. Most of the time, they receive a salary that can be used to finance accommodation and living costs on site. The amount of the salary is based on the average income of the country in the respective region and is displayed before the application.

Target Group

between 18 and 30 years old

Academic Requirements

Depending on the internship; some employers require enrolment or studies in a certain subject.

Number of Scholarships

depending on availability
